at home

1. Re-read Matthew 13:18-23. What type of soil do you most relate to today?

2. What are thorns that have tried to creep into your life and slowed your growth with God or cut it off all together? What did you do to weed out the thorns?

3. God can transform soil, but he often uses us to help prepare the way of his harvest. Who are some people in your life who are not ready to hear or have not heard and perhaps need some new life poured into them. Take some time to say them by name and pray for them.

4.Read verse 23 again. What is the result of good soil? How are you seeing this in your life? Is there something in your life that may be hindering you from being in good soil and seeing the “fruit”.

5. How do you think others can help you be in better soil and keep you in better soil?
